PROJECTS

Brain Train
Team Developed Mobile App
October 2018
React Native | Express | Node | SQL | Redux | React-Navigation | AsyncStorage

Simple mobile application for maintaining cognitive sharpness by playing mind-stimulating games

» Conceptualized idea for the app and organized the workload for a 3-man group
» Lead the UI/UX /Front-End implementation, Routing, File Structure, and created a game for the app
» Game features daily challenges and actively tracks user scores and progression
» Learned React Native and completed entire project within 2 week time-frame

Play It Forward
Personally Developed Web App
September 2018
React | Node | Express | SQL | NodeMailer | React-Chat-Widget | Auth0 | Stripe | Firebase | Redux | Sessions

Charitable recreational sports league organizer for adults and children

» Built on React lessons and taught myself other external technologies and completed app in 3 weeks
» Created a dynamically built site that allows for users to create profiles, edit team info, and auto-update any pertinent league information
» Integrated a payment system using stripe for anonymous donations and handling adult registration fees

EMPLOYMENT HISTORY

Customer Service Specialist - Savannah, GA
TV Center, 8/17 - 8/18

» Worked directly with the owner to maximize small business potential through exceptional customer service and relationship building
» Made service changes, recommend service/appliance options, and schedule installations for television, plumbing, and household appliances

Technical Recruiter - Washington, DC
Talener, 3/16 - 4/17

» Primary job function was to assist local technical professionals in finding employment & identifying tech talent
» Produced a steady quarterly revenue stream of $100k+ during the first 3 months of employment
» Used time management skills to place 50+ calls per day to identify new talent while also maintaining communication with existing clients such as Pitney Bowes, Blackboard & CapitalOne
